

JERONIMO MAYORCA

Junior Dev

ABOUT ME

I am a passionate web developer with hands-on experience in both front-end and back-end technologies. Although I am still a student of Systems Engineering, I have worked on significant projects that demonstrate my technical skills and ability to contribute effectively to development teams. I am seeking opportunities to apply my knowledge and continue growing professionally in an innovative environment.

EXPERIENCE

Freelance

- Developed a website for a jewelry wholesaler in collaboration with two friends.
- Technologies used: Angular, FuseTheme, NextJS, MongoDB.
- Implemented a registration system and access to a catalog with special prices for resellers.

Software Developer at [Humphreysoft](#)

- Responsibilities: Support, fix printing formats and front-end issues, modify the API, and conduct API testing with Postman, create sites for new customers.
- Technologies used: Frappe Framework, SSH servers (Windows and Ubuntu), REST and SOAP APIs, Docker, Postman, JSON, XML, Python.
- Achievements: Integrated an instant chat with ZOHO, contributed to the integration of a module for sending equivalent documents to DIAN, and significantly improved the API to return client-requested information.

Software Technician at [PC Tintas](#)

- Responsibilities: Receiving and repairing customer equipment, managing inventory, and providing customer service.
